

Dr. Daniel Martin OBE

- Reader & Honorary Consultant, Critical Care & Anaesthesia, University College London and the Royal Free Hospital
- Director, UCL Centre for Altitude, Space and Extreme Environment Medicine

Daniel is a critical care consultant at the Royal Free Hospital in London and Reader at University College London. His main research interests are human adaptation to hypoxia, the microcirculation and how these relate to critically ill patients.

He is the Director of the UCL Centre for Altitude, Space and Extreme Environment (CASE) Medicine, was the expedition leader of Xtreme Everest 2 (2013) and Xtreme Alps (2010) studies and played a key role in the Caudwell Xtreme Everest (2007) study.

Daniel is also the critical care lead for the High Level Isolation Unit for patients with viral haemorrhage fevers at the Royal Free Hospital.
